COMPANIES HOUSE

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Strategic report for the year ended 31 December 2022

The directors have pleasure in submitting their strategic report of the Company for the year ended 31 December 2022.

Business review and principal activities

The Company is one of Chevron Corporation's (Chevron) captive insurance companies. Its last active policy expired on 31 December 2019.

Gross and net premium written during the year was USD nil (2021: USD nil).

The total technical result for the year was a loss of USD 142,000 (2021: USD 49,000). The loss in both years was because there was no technical income, the last insurance contract expired 31 December 2019.

Investment income for the year was USD 608,000 (2021: USD 2,000). The increase is due to an increase in the rates of return for intercompany investments and for the cash account.

The results for the year show a profit on ordinary activities before tax of USD 390,000 (2021: loss of USD 66,000). The tax charge for the year was a credit of USD 40,000 (2021: USD 92,000).

The net asset position of the Company remains strong at the year-end at USD 36,352,000 (2021: USD 35,922,000).

The Company applied to The Prudential Regulation Authority (PRA) in 2021 to vary the permission of the firm under Part 4A of the Financial Services and Markets Act 2000 (FSMA) to remove the following regulated activities: (1) Effecting Contracts of Insurance; (2) Accepting Deposits. The application was approved by the PRA effective 17 December 2021.

Strategy and future outlook

The Company has no active contracts of insurance. The Company's business plan does not contemplate executing any new contracts of insurance in the future.

The Company continues to monitor developments regarding its legacy insurance contracts. With no active contracts of insurance, the most likely area of concern is potential future claims for the legacy contracts of insurance. The Company believes the likelihood of future claims to be low, given the nature of the contracts. However, should a claim occur, the Company will engage with the required internal and external advisors to ensure that claims are serviced in a manner consistent with all relevant legal and regulatory environments.

The Company is looking for ways to simplify the run-off of its insurance business. A key element of the strategy is to explore ways to remove the remaining insurance risk from its books. As the remaining risk is removed from the books, the Company will continue to explore options for reducing the scope of its operations, obtaining the necessary regulatory approvals as required.

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Strategic report for the year ended 31 December 2022 (continued)

Principal risks and uncertainties

The process of risk acceptance and risk management is addressed through a framework of policies procedures and internal controls. All policies are subject to corporate approval and ongoing review. The underwriting and reinsurance strategies are given board approval and communicated clearly through policy guidelines. The Company has developed a framework for identifying the risks that each business sector is exposed to and their impact on economic capital. The process includes principles to manage its Own Risk Solvency Assessment (ORSA), as outlined by the guidance provided under Solvency II. This process is used both to manage the Company's capital requirements and to ensure that the Company has the financial strength and capital adequacy to support the ongoing business and to meet the requirements of policyholders and relevant regulations.

The principal risks from our general insurance business are latent claims that could develop from the firm's legacy insurance contracts; inclusive of fluctuations in timing, frequency and severity of claims compared to our expectations. These risks are discussed in Note 5 of the financial statements.

In addition, the Company is exposed to financial risks arising primarily from the investments that are held. These risks are discussed in Note 6 of the financial statements.

The impact of climate change and the related sustainability issues form an integral part of the directors' review of the Company's overall business strategy. The Company's ultimate parent, Chevron Corporation, has developed a framework which provides details of the governance, risk management, processes, and metrics used to manage climate change-related risk and opportunities. Management has assessed the potential impact of climate change and considers the risk to not be material to the Company's financial statements..

Key Performance Indicators ('KPI's)

The Company actively evaluates the firm's financial performance. In 2022 the Company incurred a net loss from continuing operations of USD 142,000 (2021 – USD 49,000). The levels of claim activity, claim costs (2022 - USD 75,000, 2021 – USD 144,300), net credits to income in both years), and operating expenses (2022 - USD 217,000, 2021 - USD 193,000) continue to be low.

In addition, the Company earned net investment income which contributed approximately USD 608,000 (2021 – USD 2,000) to more than offset the net loss from continuing operations.

The Company believes that future income derived from investments, as well as the current level of capital in excess of reserves, will be adequate to service the Company's ongoing insurance obligations and operating expenses.

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Strategic report for the year ended 31 December 2022 (continued)

Section 172 statement

The Companies (Miscellaneous Reporting) Regulations 2018 (2018 MRR) require the Directors to explain how they considered the interests of key stakeholders and the broader matters set out in section 172(1) of the Companies Act 2006 (“S172”) when performing their duty to promote the success of the Company under S172.

This section of the strategic report comprises the Directors 172 Statement and statement on engagement with suppliers, customers and others.

As a wholly owned subsidiary of the Chevron Corporation, the Directors ensure that decisions are beneficial to all the Company’s stakeholders as well as having regard to the long-term sustainable success of the Chevron Group as a whole. The strategic aims of the Company are derived from those of the Chevron Group, which can be found in the Chevron Corporation 2022 Annual Report at <https://www.chevron.com/annual-report>. The Chevron Group internally organizes its activities principally along business and function lines and transacts its business through legal entities. This organization structure is designed to achieve Chevron’s overall business objectives, whilst respecting the separate legal identity of the individual Chevron companies through which it is implemented and the independence of each Board of Directors.

The Board of Directors of the Company hold positions across key functions of the Company or are in positions that support those functions of the Company. When appointed to the Board, each Director is briefed on their role and responsibilities by the Company Secretary and is provided with training and support to help them fulfil their responsibilities.

The Company’s ultimate parent, Chevron Corporation, has developed and implemented a number of policies and principles which the Company has reviewed and adopted. “The Chevron Way” details the guiding principles which all employees must follow, and these principles include diversity and inclusion, high performance, integrity and trust, protecting people and the environment and partnership. Our Business Conduct & Ethics Code (BCEC) is built on Chevron’s core values and highlights the principles that guide our business conduct and how our policies are designed to support full compliance with applicable laws.

Chevron’s BCEC:

<https://www.chevron.com/-/media/shared-media/documents/chevronbusinessconductethicscode.pdf>.

Prior to Company matters being brought to the Board of Directors for consideration, significant levels of internal engagement are undertaken with the broader business. Dependent on the project or activity, Board members or representatives of the Company may have participated in this engagement through their relevant business area and this therefore helps inform the relevant board decisions.

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Strategic report for the year ended 31 December 2022 (continued)

Going Concern Assessment

The Company has assessed operations from a going concern perspective and based on the ratio of assets held compared to insurance liabilities and expected future expenses. The Company considers the current holdings in cash of approximately USD 20.9 million are more than adequate both to pay for future insurance claims, currently valued at USD \$85,000 and to fund operating expenses going forward. Therefore, the Company expects to meet its future liabilities and expenses and to continue as a going concern.

Management completed a business plan in early 2022 and based on current financial results and the latest future projections, the Directors believe that the future operations of the Company will be sufficient to ensure the future capital position of the Company is preserved, and to provide adequate financial resources to meet the future financial obligations of the Company as they become due.

Due to the Russia and Ukraine conflict, Governments (including Russia) have imposed and may impose additional sanctions and other trade laws, restrictions and regulations that could lead to disruption to trade in the region around Russia and could have an adverse effect on the Company's financial position. The financial impacts of such risks, including presently imposed sanctions, are not currently material for the Company; however, it remains uncertain how long these conditions may last or how severe they may become.

Principal decisions

No significant decisions were made in 2022.

Employees

The Company does not have any direct employees. Employees are engaged through affiliated companies of Chevron Corporation.

Business Relationships

The Company has business relationships with a small number of external suppliers in addition to wholly owned subsidiaries and affiliates of Chevron Corporation.

Suppliers:

The values inherent in *The Chevron Way*, which describe how the Company conducts its business in a socially and environmentally responsible manner, apply to all stakeholder groups with whom it works. This applies equally when working with suppliers which are selected to be a part of the Company's value chain, and who contribute to its offering and value proposition. This is done through a structured procurement organization which engages with suppliers at all levels, to ensure that the Company's vision, values and strategies can be effectively executed safely, legally and reliably.

The Company has no customers.

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Strategic report for the year ended 31 December 2022 (continued)

Community and Environment

The Company places the highest priority on the health and safety of the workforce and protection of assets, communities and the environment. The Operational Excellence Management System (OEMS) defines the expectations regarding the systematic management of workforce safety and health, process safety, reliability and integrity, environment, efficiency, security and stakeholders to achieve high performance in operational excellence. Protecting people and the environment is a key value. The Company expects compliance with the letter and the spirit of applicable environmental, health and safety laws, regulations and policies. Within each of the functional areas, management are responsible for monitoring performance related to health, safety and the environment.

Approved by order of the Board

B Zaza 
Company Secretary

25 SEPTEMBER 2023

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Directors' report for the year ended 31 December 2022

The directors have pleasure in submitting their annual report and the audited financial statements of the Company for the year ended 31 December 2022.

Future developments

Future developments in the business of the Company are discussed in the strategic report.

Dividends

No dividend has been proposed for 2022 (2021: USD Nil).

Directors

The directors, who held office throughout the year, and up to the date of signing the financial statements, are named on page 1, which forms part of this report.

Financial instruments and risk management

Information on the use of financial instruments by the Company and its management of financial risk is disclosed in Note 6 to the financial statements. In particular, the Company's exposure to market risk, credit risk and liquidity risk are separately disclosed in that note. The Company's exposure to cash flow risk is addressed under the headings of 'Credit risk', 'Liquidity risk' and 'Market risk'.

Statement of disclosure of information to auditors

Each of the persons who is a director at the date of this report confirms that:

- (a) so far as the director is aware, there is no relevant audit information of which the Company's auditors are unaware; and
- (b) he/she has taken all the steps that he/she ought to have taken as a director in order to make himself/herself aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Statement of directors' responsibilities in respect of the financial statements

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law).

Under company law, directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Directors' report for the year ended 31 December 2022

Statement of directors' responsibilities in respect of the financial statements (continued)

- state whether applicable United Kingdom Accounting Standards, comprising FRS 102 have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are also responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006.

The directors are responsible for the maintenance and integrity of the company's financial statements published on the ultimate parent company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Directors' confirmations

In the case of each director in office at the date the directors' report is approved:

- so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware; and
- they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Independent auditors

The auditors, PricewaterhouseCoopers LLP, have indicated their willingness to continue in office and a resolution concerning their re-appointment will be proposed at the Annual General Meeting.

Qualifying third party indemnity provisions

The Company maintains liability insurance for its directors and officers. The Company also provides an indemnity for its directors, which is a qualifying third-party indemnity provision for the purposes of the Companies Act 2006. The indemnity was in force throughout the last financial year and at the date of the approval of the financial statements.

Approved by order of the board.

B Zaza

25 SEPTEMBER 2023

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Independent auditors' report to the members of Heddington Insurance (U.K.) Limited

Report on the audit of the financial statements

Opinion

In our opinion, Heddington Insurance (U.K.) Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2022 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report, which comprise: the Balance Sheet as at 31 December 2022; the Profit and Loss Account and Statement of Changes in Equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Our opinion is consistent with our reporting to the Board of Directors.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, as applicable to public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by the FRC's Ethical Standard were not provided.

We have provided no non-audit services to the company in the period under audit.

Our audit approach

Overview

Audit scope

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Independent auditors' report to the members of Heddington Insurance (U.K.) Limited (continued)

- As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements.

Key audit matters

- Valuation of claims outstanding

Materiality

- Overall materiality: US\$367,000 (2021: US\$365,000) based on 1% of total assets.
- Performance materiality: US\$275,000 (2021: US\$273,000).

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

This is not a complete list of all risks identified by our audit.

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Independent auditors' report to the members of Heddington Insurance (U.K.) Limited (continued)

The key audit matters below are consistent with last year.

Key audit matter	How our audit addressed the key audit matter
<p><i>Valuation of claims outstanding</i></p> <p>Refer to note 4 and 14.</p> <p>As at 31 December 2022, claims outstanding comprised \$85 thousand claims incurred but not reported ("IBNR"). IBNR is inherently uncertain and contains significant estimates and a significant degree of judgement. As a result, we focused on this area as the valuation can be materially impacted by a number of factors including:</p> <ul style="list-style-type: none"> • the risk of inappropriate assumptions used in determining current year estimates. Given that limited data is available, there is a greater reliance on expert judgement in management's estimates, including consideration of latent claims; and • the consideration by management of alternative assumptions and inherent bias when developing an estimate. 	<p>We have understood and evaluated the design effectiveness of key controls in place in respect of the valuation of claims outstanding. In addition, we performed the following procedures:</p> <ul style="list-style-type: none"> • We utilised our actuarial experts in order to assess the reasonableness of the IBNR estimates, performing an assessment of the methodology, assumptions and management's model. This included reviewing the reserving report produced by management's independent experts, considering their competence and objectivity, along with the reasonableness of the assumptions including latent claims and methodologies used in setting the IBNR; • We have assessed the reasonableness of key metrics such as the gross to net ratios applied to the reserves; and • We have assessed the completeness and accuracy of data being used by the external expert, as well as the accuracy of the actuarial model used by the expert. <p>The results of our procedures indicated that the valuation of claims outstanding was supported by the evidence obtained.</p>

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the company, the accounting processes and controls, and the industry in which it operates.

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Independent auditors' report to the members of Heddington Insurance (U.K.) Limited (continued)

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the company, the accounting processes and controls, and the industry in which it operates. As part of designing our audit, we determined materiality and assessed the risks of material misstatement on a line by line basis in the financial statements.

The impact of climate risk on our audit

As part of our audit we made enquiries of management to understand the extent of the potential impact of climate risk on the company's financial statements, and we remained alert when performing our audit procedures for any indicators of the impact of climate risk. Our procedures

did not identify any material impact as a result of climate risk on the company's financial statements.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements as a whole as follows:

<i>Overall company materiality</i>	US\$367,000 (2021: US\$365,000).
<i>How we determined it</i>	1% of total assets
<i>Rationale for benchmark applied</i>	In determining our materiality, we have considered financial metrics which we believe to be relevant to the primary users of the financial statements. Given the company is a captive insurer in run-off, we concluded total assets to be the most relevant benchmark to the users.

We use performance materiality to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds overall materiality. Specifically, we use performance materiality in determining the scope of our audit and the nature and extent of our testing of account balances, classes of transactions and disclosures, for example in determining sample sizes. Our performance materiality was 75% (2021: 75%) of overall materiality, amounting to US\$275,000 (2021: US\$273,000) for the company financial statements.

In determining the performance materiality, we considered a number of factors - the history of misstatements, risk assessment and aggregation risk and the effectiveness of controls - and concluded that an amount in the middle of our normal range was appropriate.

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Independent auditors' report to the members of Heddington Insurance (U.K.) Limited (continued)

We agreed with the Board of Directors that we would report to them misstatements identified during our audit above US\$18,000 (2021: US\$18,000) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

Our evaluation of the directors' assessment of the company's ability to continue to adopt the going concern basis of accounting included:

- Obtaining a copy of management's going concern assessment to assess the identification and assessment of the risks relevant to going concern; and
- Consideration of the regulatory capital requirements.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the company's ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Independent auditors' report to the members of Heddington Insurance (U.K.) Limited (continued)

With respect to the Strategic report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on our work undertaken in the course of the audit, the Companies Act 2006 requires us also to report certain opinions and matters as described below.

Strategic report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic report and Directors' Report for the year ended 31 December 2022 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic report and Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of directors' responsibilities in respect of the financial statements, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Independent auditors' report to the members of Heddington Insurance (U.K.) Limited (continued)

Based on our understanding of the company and industry, we identified that the principal risks of non-compliance with laws and regulations related to the Prudential Regulation Authority's regulations and the Finance Conduct Authority's regulations, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the financial statements such as the Companies Act 2006.

We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to management bias in the determination of claims outstanding and the posting of inappropriate journal entries. Audit procedures performed by the engagement team included:

- Discussions with management including consideration of known or suspected instances of fraud;
- Reviewing correspondence with regulators in relation to compliance with laws and regulations;
- Assessing judgements and estimates made by management in relation to claims outstanding (see key audit matter);
- Identifying and testing journal entries which we considered to be unusual; and
- Designing audit procedures to incorporate unpredictability around the nature, timing and extent of our testing.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not obtained all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Appointment

We were appointed by the directors on 2 July 2001 to audit the financial statements for the year ended 31 December 2001 and subsequent financial periods. The period of total uninterrupted engagement is 22 years, covering the years ended 31 December 2001 to 31 December 2022.

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Notes to the financial statements

for the year ended 31 December 2022

1. General information

Heddington Insurance (U.K.) Limited ('the Company') transacts general insurance business in the UK. The Company is a private company limited by shares and is incorporated in England. The address of its registered office is 1 Westferry Circus Canary Wharf London, E14 4HA.

The immediate parent undertaking is Heddington Insurance Limited which is incorporated in Bermuda. The ultimate parent undertaking and controlling party is Chevron Corporation, which is incorporated in the state of Delaware, USA. This is the largest and smallest group to consolidate these financial statements. Copies of Chevron Corporation consolidated financial statements can be obtained from 6001 Bollinger Canyon, San Ramon, California 94583, USA.

2. Statement of compliance

The Financial statements of Heddington Insurance (U.K.) Limited have been prepared in compliance with United Kingdom Accounting Standards, including Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" ("FRS 102"), Financial Reporting Standard 103, "Insurance Contracts" (FRS 103) and the Companies Act 2006. The financial statements have been prepared in compliance with the provisions of the Large and Medium sized Companies and Groups (Accounts and Reports) Regulations relating to insurance companies.

3. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

a. Basis of preparation

The preparation of financial statements in conformity with FRS 102 and FRS 103 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4.

b. Going concern

Having assessed the principal risks, the directors considered it appropriate to adopt the going concern basis of accounting in preparing the financial statements.

Heddington Insurance (U.K.) Limited
Registered Number 01298239 England
Notes to the financial statements
for the year ended 31 December 2022 (continued)

3. Summary of significant accounting policies (continued)

c. Exemptions for qualifying entities under FRS 102

FRS 102 allows a qualifying entity certain disclosure exemptions, subject to certain conditions, which have been complied with, including notification of, and no objection to, the use of exemptions by the Company's shareholders. The Company has taken advantage of the following exemptions:

- i) from preparing a statement of cash flows, on the basis that it is a qualifying entity and the consolidated statement of cash flows, includes the Company's cash flows;
- ii) from disclosing the Company key management personnel compensation, as required by FRS 102 paragraph 33.7.

d. Foreign currencies

Items included in Heddington Insurance (U.K.) Limited's financial statements are measured and presented using the currency of the primary economic environment in which it operates, which is the US Dollar. Heddington Insurance (U.K.) Limited's functional currency is the US Dollar. All Sterling transactions are translated to US dollars at the rate of exchange on the date of the transaction. Monetary assets and liabilities held in Sterling are translated to US dollars at rates of exchange ruling at the end of the year.

Where non-US dollar currency assets held do not match non-US dollar currency liabilities any resultant gain or loss on mismatching is reported in the profit and loss account.

e. Offsetting of assets and liabilities.

Assets and liabilities, or income and expenses have not been offset unless required or permitted by FRS.

f. Insurance contracts

All classes of insurance business written by the Company are designated as insurance contracts and are accounted for on an annual basis.

i) Claims incurred

Claims incurred comprise claims and related expenses paid in the year and changes in the provision for outstanding claims, including provisions for claims incurred but not reported and related expenses, together with any other adjustments to claims from previous years. Where applicable, deductions are made for salvage and other recoveries.

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

**Notes to the financial statements
for the year ended 31 December 2022 (continued)**

3. Summary of significant accounting policies (continued)

f. Insurance contracts (continued)

ii) Claims provisions and related reinsurance recoveries

Provision is made at the year-end for the estimated cost of claims incurred but not settled at the balance sheet date, including the cost of claims incurred but not yet reported to the Company. The estimated cost of claims includes expenses to be incurred in settling claims and a deduction for the expected value of salvage and other recoveries. The Company takes all reasonable steps to ensure that it has appropriate information regarding its claims exposures. However, given the uncertainty in establishing claims provisions, it is likely that the final outcome will prove to be different from the original liability established.

Classes of business where claims are typically reported relatively quickly after the claim event tend to display lower levels of volatility. In calculating the estimated cost of unpaid claims the Company uses a variety of estimation techniques, generally based upon statistical analyses of historical experience, which assumes that the development pattern of the current claims will be consistent with past experience. Allowance is made, however, for changes or uncertainties which may create distortions in the underlying statistics, or which might cause the cost of unsettled claims to increase or reduce when compared with the cost of previously settled claims including:

- changes in Company processes which might accelerate or slow down the development and/or recording of paid or incurred claims compared with the statistics from previous periods
- changes in the legal environment
- the effects of inflation
- changes in the mix of business
- impact of large losses
- movements in industry benchmarks

A component of these estimation techniques is usually the estimation of the cost of notified but not paid claims. In estimating the cost of these claims the Company considers any information available from loss adjusters and information on the cost of settling claims with similar characteristics in previous periods.

Large claims impacting each relevant business class are generally assessed separately, being measured on a case-by-case basis or projected separately in order to allow for the possible distortive effect of the development and incidence of these large claims.

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Notes to the financial statements

for the year ended 31 December 2022 (continued)

3. Summary of significant accounting policies (continued)

f. Insurance contracts (continued)

(ii) Claims provisions and related reinsurance recoveries (continued)

The most appropriate estimation technique is selected considering the characteristics of the business class and the extent of the development of each accident year.

Provisions are calculated gross of any reinsurance recoveries. A separate estimate is made of the amounts that will be recoverable from reinsurers based upon the gross provisions and having due regard to collectability.

Liability claims

Liability claims are longer tail than the class of business described above and so a larger element of the claims provision relates to incurred but not reported claims. Claims estimates for the Company's liability business are derived from a combination of loss ratio-based estimates and an estimate based upon actual claims experience using a predetermined formula whereby greater weight is given to actual claims experience as time passes. The initial estimate of the loss ratio based on the experience of previous years adjusted for factors such as premium rate changes and claims inflation, and on the anticipated market experience, is an important assumption in this estimation technique. The assessment of claims inflation and anticipated market experience is particularly sensitive to the level of court awards and to the development of legal precedent on matters of contract and tort. This class of business is also subject to the emergence of new types of latent claims but given the uncertainty of when these claims will develop no allowance is included for this as at the balance sheet date.

Pollution claims

There may be a long delay between the occurrence and notification of these types of claims. In estimating the cost of claims the Company considers the type of risks written historically that may give rise to exposure to these risks, notifications received from policyholders, the nature and extent of the cover provided, the current legal environment, changes in the effectiveness of clean up techniques and industry benchmarks of the typical cost of claims of this kind and of total expected insured losses.

Reinsurance recoveries

The amounts that will be recoverable from reinsurers are based upon gross provisions, having due regard to collectability. Reinsurance recoveries in respect of estimated claims incurred but not reported are assumed to be consistent with the historical pattern of such recoveries, adjusted to reflect changes in the nature and extent of the Company's reinsurance programme

Heddington Insurance (U.K.) Limited
Registered Number 01298239 England
Notes to the financial statements
for the year ended 31 December 2022 (continued)

3. Summary of significant accounting policies (continued)

f. Insurance contracts (continued)

(ii) Claims provisions and related reinsurance recoveries (continued)

over time. An assessment is also made of the recoverability of reinsurance recoveries having regard to market data on the financial strength of each of the reinsurance companies.

(iii) Deferred acquisition costs

Acquisition costs comprising commission and other costs related to the acquisition of new insurance contracts are, where material, deferred to the extent that they are attributable to premiums unearned at the balance sheet date.

g. Investment income

Investment income comprises interest earned on an accruals basis and realised investment gains and losses. Realised gains and losses are calculated as the difference between sales proceeds and cost. Such income is stated gross of any applicable taxation credit.

h. Taxation

Taxation expense for the period comprises current and deferred tax recognised in the reporting period. Tax is recognised in the non-technical account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case tax is also recognised in other comprehensive income or directly in equity, respectively.

Current or deferred taxation assets and liabilities are not discounted.

Current tax

Current tax is the amount of income tax payable in respect of the taxable profit for the year or prior years. Tax is calculated based on tax rates and laws that have been enacted or substantively enacted by the period end. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate based on amounts expected to be paid to the tax authorities.

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

**Notes to the financial statements
for the year ended 31 December 2022 (continued)**

3. Summary of significant accounting policies (continued)

Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the period end and that are expected to apply to the reversal of the timing difference. The taxation charge in the non-technical account is based on the taxable profits for the year. Deferred taxation is provided using the liability method on all timing differences to the extent that they are expected to reverse in the future without being replaced, calculated at the rate at which it is anticipated the timing differences will reverse. Deferred taxation assets are only recognised if recovery is reasonably certain. Deferred taxation balances are not discounted.

i. Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. Bank overdrafts, when applicable, are shown within borrowings in current liabilities.

j. Share capital

Ordinary shares are classified as equity.

k. Distributions to equity holders

Dividends and other distributions to the Group's shareholders are recognised as a liability in the financial statements in the period in which the dividends and other distributions are approved by the shareholders. These amounts are recognised in the statement of changes in equity.

l. Financial instruments

The Company has chosen to apply the recognition and measurement provisions of FRS 102 chapters 11 and 12 and the disclosure requirements of FRS 102 in respect of financial instruments.

m. Financial assets

The Company classifies its financial assets into the following categories: Debt securities and other fixed-income securities – at fair value through profit or loss; and Deposits with credit institutions – loans and receivables. Management determines the classification of its investments at initial recognition and revalues this at every reporting date.

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Notes to the financial statements

for the year ended 31 December 2022 (continued)

3. Summary of significant accounting policies (continued)

n. Financial assets (continued)

(i) Deposits with credit institutions - Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market other than those that the Company intends to sell in the short term or that it has designated as at fair value through profit or loss. Loans and receivables are subsequently measured at amortised cost using the effective interest method. Receivables arising from insurance contracts are also classified in this category and are reviewed for impairment as part of the impairment review of loans and receivables. This basis of valuation is viewed by the directors as having prudent regard to the likely realisable value.

o. Financial liabilities

Creditors are financial liabilities and are recognised initially at fair value, net of directly attributable transaction costs. Creditors are subsequently stated at amortised cost, using the effective interest method.

p. Related party transactions

The Company is charged an allocation of costs from Chevron Products UK Limited, a related party, for resources used in the performance of insurance related activities on the behalf of Heddington Insurance (U.K.) Limited.

4. Critical accounting judgements and estimation uncertainty

At the balance sheet date, gross provision for claims was \$85,000 (2021: \$159,000) and related insurance recoveries was \$13,000 (2021: \$12,000). Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The claims provision includes amounts in respect of potential claims and related expenses which are not expected to be settled for many years and where there is considerable uncertainty as to the amount at which they will be settled.

Heddington Insurance (U.K.) Limited
Registered Number 01298239 England
Notes to the financial statements
for the year ended 31 December 2022 (continued)

4. Critical accounting judgements and estimation uncertainty (continued)

The level of the provision has been set based on the information that is currently available, experience of development of similar claims and case law. The most significant assumptions made relate to the level of future claims, the level of future claims settlements and the legal interpretation of insurance policies. Whilst the directors consider that the gross provision for claims and the related insurance recoveries are fairly stated based on the information currently available to them, the ultimate liability will vary as a result of subsequent information and events and may result in significant adjustments to the amounts provided. Adjustments to the amounts of provision are reflected in the financial statements for the period in which the adjustments are made. The methods used, and the estimates made for IBNR valuation purposes are reviewed regularly. The employer's liability class of business is also subject to the emergence of new types of latent claims but no allowance is included for this as at the balance sheet date. There are no other judgements and estimates.

Insurance contracts are those contracts that transfer significant insurance risk.

The estimation of claims incurred but not reported ("IBNR") is generally subject to a greater degree of uncertainty than the estimation of the cost of settling claims already notified to the Company, where more information about the claim event is generally available. Claims IBNR may often not be apparent to the insured until many years after the event giving rise to the claims have occurred. Classes of business where the IBNR proportion of the total reserve is high will typically display greater variations between initial estimates and final outcomes because of the greater degree of difficulty of estimating these reserves.

5. Management of insurance risk

The risk under any one insurance contract is the possibility that the insured event occurs and the uncertainty of the amount of the resulting claim. By the very nature of an insurance contract, this risk is random and therefore unpredictable.

For a portfolio of insurance contracts where the theory of probability is applied to pricing and provisioning, the principal risk that the Company faces under its insurance contracts is that the actual claims payments exceed the carrying amount of the insurance liabilities. This could occur because the frequency or severity of claims is greater than estimated. Insurance events are random, and the actual number and amount of claims will vary from year to year from the level established using statistical techniques.

Factors that aggravate insurance risk include lack of risk diversification in terms of type and amount of risk, geographical location and type of industry covered.

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

**Notes to the financial statements
for the year ended 31 December 2022 (continued)**

5. Management of insurance risk (continued)

Assumptions

The Company wrote no new business in 2022. There are no reported outstanding claims in the current year (2021: Nil). The IBNR is calculated based on a central method derived from two actuarial methodologies: Development Method and Bornhuetter-Ferguson Method. The directors believe that these assumptions give rise to an appropriate valuation of IBNR to be reported in the financial statements with the UK Employers' liability contract responsible for the majority of the gross technical provision. The assumptions used have not changed from last year.

Concentration risk

The directors review the concentration of insurance risk, which is on the Employers' 'Liability and Onshore Property classes of business and all in the UK and Northern Europe. All current IBNR is assigned to the contracts in those regions. This concentration of risk remains unchanged from last year.

Sensitivity analysis

A movement in the claims reserves of +/- 20% would result in additional profit / (loss) for the year and increase / (decrease) in equity of \$12,000 (2021: \$24,000) assuming all other assumptions remain unchanged.

Heddington Insurance (U.K.) Limited
Registered Number 01298239 England
Notes to the financial statements

Registered Number 01298239 England
Notes to the financial statements
for the year ended 31 December 2022 (continued)

6. Management of financial risk

Financial risk management objectives

The Group is exposed to a range of financial risks; in particular, the key financial risk is that the proceeds from financial assets are not sufficient to fund the obligations arising from insurance policies and investment contracts as they fall due. The most important components of this financial risk are market risk (including interest rate risk, equity price risk and currency risk), credit risk and liquidity risk.

a) Market risk

Equity price risk

The Company holds no equity investments.

Currency risk

The Company manages its foreign exchange risk against their functional currency. Foreign exchange risk arises when future commercial transactions or recognised assets and liabilities are denominated in a currency that is not the entity's functional currency. The Company is exposed to currency risk in respect of liabilities under policies of insurance denominated in currencies other than US Dollars. The most significant currency to which the Company is exposed is Sterling. The Company seeks to mitigate the risk by matching the estimated foreign currency denominated liabilities with assets denominated in the same currency.

At 31 December 2022, if the Sterling had weakened/strengthened by 20% against the US Dollar with all other variables held constant, profit for the year would have been \$54,193 (2021: \$109,842) lower/higher, mainly as a result of foreign exchange gains/losses on the translation of Sterling denominated financial assets, carried at fair value through profit or loss and foreign exchange losses/gains on translation of Sterling denominated insurance liabilities.

b) Credit risk

Credit risk is the risk that a counterparty will be unable to pay amounts in full when due. Key areas where the Company is exposed to credit risk are:

- reinsurer's share of insurance liabilities,
- amounts due from reinsurers in respect of claims already paid,
- amounts due from insurance contract holders, and
- investments in debt securities
- intercompany balances

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Notes to the financial statements
for the year ended 31 December 2022 (continued)

6. Management of financial risk (continued)

b) credit risk (continued)

The assets bearing risk are analysed below by credit rating:

Ratings	2022 \$000	2021 \$000
A+	13	12
A-1	20921	20576
Not rated	15,810	15,975

The Company's investment guidelines as approved by the directors state that all Notes and bonds must be rated by Moody's or Standard and Poor's and must carry a minimum rating of AA. There have been no breaches of the investment guidelines and these guidelines remain unchanged from last year.

Reinsurance is used to manage insurance risk. This does not, however, discharge the Company's liability as a primary insurer. If a reinsurer fails to pay a claim, the Company remains liable for the payment to the policy holder. The creditworthiness of reinsurers is considered on an annual basis by reviewing their financial strength and recent payment history prior to the finalisation of the annual reinsurance program. The current year reinsurance protection participating reinsurers are rated by Standard and Poor's or AM Best and carry a minimum rating of A+.

The table below analyses the aging of the Company's financial assets and reinsurer's share of outstanding claims.

Financial assets and reinsurer's share of outstanding claims At 31 December 2022	Neither past Due nor impaired \$000	Past due \$000	Total \$000	Carrying value \$000
Debt securities and other fixed Reinsurer's share of claims Outstanding	13	0	13	13
Debtors from group companies	15,810	0	15,810	15,810
Cash at bank and in hand	20,921	0	20,921	20,921
Financial assets and reinsurer's share of outstanding claims	<u>36,744</u>	<u>0</u>	<u>36,744</u>	<u>36,744</u>

Heddington Insurance (U.K.) Limited

Registered Number 01298239 England

Notes to the financial statements

for the year ended 31 December 2022 (continued)

6. Management of financial risk (continued)

Financial assets and reinsurer's share of outstanding claims At 31 December 2021	Neither past Due nor impaired \$000	Past due \$000	Total \$000	Carrying value \$000
Reinsurer's share of claims Outstanding	12	0	12	12
Debtors from group companies	15,975	0	15,975	15,975
Cash at bank and in hand	20,576	0	20,576	20,576
Financial assets and reinsurer's share of outstanding claims	<u>36,563</u>	<u>0</u>	<u>36,563</u>	<u>36,563</u>

c) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The Company's investment guidelines approved by the Board of Directors sets out to maintain a liquid portfolio to cover anticipated liabilities as they fall due and also unexpected levels of cash requirements to meet claim payments without recourse to any borrowing facilities.

The following tables show the undiscounted expected timing of future cash flows in the Company. All liabilities are presented on a contractual cash flow basis except for the insurance liabilities, which are presented with their expected cash flows.

At 31 December 2022	< 1 Year \$000	1 - 2 Years \$000	2 - 5 Years \$000	> 5 Years \$000	Total \$000
Creditors	149	0	0	0	149
Financial liabilities	58	0	0	100	158
Claims Outstanding	0	0	0	0	0
IBNR	29	9	27	20	85
Financial liabilities and Outstanding claims	<u>236</u>	<u>9</u>	<u>27</u>	<u>120</u>	<u>392</u>

6. Management of financial risk (continued)

c) Liquidity risk (continued)

At 31 December 2021	< 1 Year \$000	1 - 2 Years \$000	2 - 5 Years \$000	> 5 Years \$000	Total \$000
Creditors	231	0	0	0	231
Financial liabilities	151	0	100	0	251
Claims Outstanding	0	0	0	0	0
IBNR	<u>72</u>	<u>52</u>	<u>35</u>	<u>0</u>	<u>159</u>
Financial liabilities and Outstanding claims	<u>454</u>	<u>52</u>	<u>135</u>	<u>0</u>	<u>641</u>

d) Capital Management (unaudited)

The Company maintains an efficient capital structure comprised primarily of equity shareholders' funds, consistent with the Company's risk profile and the regulatory and market requirements of the business.

The Company's objectives in managing its capital are:

- a) to match the profile of its assets and liabilities, taking account of the risks inherent in the business;
- b) to satisfy the requirements of its policyholders, regulators and rating agencies;
- c) to manage exposures to movement in exchange rates.

The Company is regulated by the Prudential Regulation Authority and the Company is subject to insurance solvency regulations which specify the minimum amount and type of capital that must be held in addition to the insurance liabilities.

The Solvency II regime has been effective since 2016 and establishes a set of EU-wide capital requirements, risk management and disclosure standards. The Company is subject to these regulations. The Company is required to meet a Solvency Capital Requirement (SCR) which is calibrated to seek to ensure a 99.5% confidence of the ability to meet obligations over a 12-month time horizon. The Company calculates its SCR in accordance with the standard formula prescribed in the Solvency II regulations as the assumptions underlying the standard formula are considered to be a good fit for the Group's risk profile.

Notes to the financial statements

for the year ended 31 December 2022 (continued)

d) Capital Management (unaudited) (continued)

	SCR – USD 000's	MCR – USD 000's
Capital requirement	2,965	3,668
Total eligible own funds	35,952	35,952
Surplus	32,987	32,284
Solvency ratio	12.1	9.8

The above summary indicates that regarding both the SCR and MCR, the level of Solvency II own funds exceeds the capital requirements by a wide margin. Therefore, the Firm considers that it is in a satisfactory capital position.

Other charges including value adjustments:		
Foreign exchange revaluation	74	18

The Company has no employees (2021: None). The Company receives services performed by affiliated Chevron entities, both inside and outside of the UK. Certain costs incurred by Chevron Products UK Limited have been recharged to the Company and are included in Administration Expenses. Affiliated companies providing services to the Company do not track costs by individuals performing those services. Therefore, there is no reasonable methodology to allocate individual employee costs to the Company.

9. Directors' emoluments

The Company has three directors whose contracts of employment are with affiliated companies. The directors are not paid for their role because it is a function of their employment with the affiliate.

Two directors are accruing benefits under the Chevron Energy Limited defined benefit pension scheme (2021: two). Full disclosure of the scheme is given in the consolidated financial statements of Chevron Energy Limited, for the year ended 31 December 2022. The Company is unable to identify its share of the underlying assets and liabilities of the scheme.

11. Tax credit on profit/(loss) on ordinary activities

	2022 \$000	2021 \$000
Current tax:		
UK corporation tax at 19% (2021:19%)		
<ul style="list-style-type: none"> • Current tax on results for the year • Adjustments in respect of prior years • Origination and reversal of timing differences 	74 (205) <u>91</u>	(13) (19) <u>(60)</u>
Total current tax	<u>(40)</u>	<u>(92)</u>
Tax credit on profit/(loss) on ordinary activities	(40)	(92)
<i>Factors affecting the tax credit for the year</i>		
The tax assessed for the year is at the standard rate of corporation tax in the UK 19% (2021: 19%).		
The differences are explained below:		
Non-technical account		
Profit/(loss) on ordinary activities before tax	390	(66)
<ul style="list-style-type: none"> • Profit/(loss) on ordinary activities before tax multiplied by the standard rate of corporation tax in the UK of 19% (2021:19%) • Adjustments in respect of prior years • Origination and reversal of timing differences 	74 (205) <u>91</u>	(13) (19) <u>(60)</u>
Total tax credit for the year	<u>(40)</u>	<u>(92)</u>

The UK Government confirmed in its Spring Budget 2023 that from April 2023, the planned increase in the corporation tax rate to 25% will go ahead. For 2023, Heddington is calculating an effective tax rate of 23.5%, which considers the corporate tax rate of 19% effective January 1 to March 31, and the 25% rate effective April 1 onwards. Heddington's final tax rate for 2023 may differ from the calculated rate of 23.5%, due to the fact that Heddington's tax return is included in the Group tax return for the Chevron UK companies, and the firm may receive a credit based on the consolidated results of the Group return.
